Case Close-out
[REDACTED]

OFFICE OF
INSPECTOR GENERAL

MEMORANDUM

Date: May 17, 2000
To: 97050022 [REDACTED]
File # I 97050022 [REDACTED]
From: [REDACTED] Assistant Inspector General for Investigations
Re: Case close-out [REDACTED]

We received information from the United States Attorney's Office in [REDACTED] that they were investigating [REDACTED] in regard to several U.S.A.I.D. contracts. We coordinated with A.I.D.-OIG and discovered that there was a similar NSF grant. We investigated possible concealment of the A.I.D. contracts to the NSF program office and found that [REDACTED] did verbally tell NSF that he was doing a similar project for AID. We found no additional problems with the NSF Grant to [REDACTED]. In consultation with the AUSA, our office concluded that NSF nexus was informational to the A.I.D. case but not directly related. The AUSA agreed that there was no reason to continue to keep the NSF case open at this time but stated that she would keep us informed of the status of AID case. This case is closed.
