## **Case Closeout Memorandum**

OIG Case Number I-25-0048-O

We conducted a Qualitative Assessment Review of the investigative operations of the Special Inspector General for Afghanistan Reconstruction (SIGAR) for the period ended May 28, 2025. Based on our review of SIGAR's policies and procedures, and interviews with SIGAR staff, we determined that the system of internal safeguards and management procedures for SIGAR's investigative function was in compliance with the quality standards established by CIGIE and the applicable Attorney General guidelines. We also identified several best practices and observations, which we shared with SIGAR.
